

A survey of hearing aid users

# Administration of Hearing Aid Maintenance and Replacement

Hillary Cruise

---

## We're looking for participants!

My name is Hillary Cruise and I am an MSc student from the School of Audiology at Queen Margaret University in Edinburgh. As part of my degree course, I am undertaking a research project for my Masters dissertation.

This study will investigate the circumstances in which hearing aids are lost, how clinics in the UK manage lost hearing aids and how they administer hearing aid replacements. The findings of the project will be useful in determining best practices for future protocols regarding lost hearing aids.

**To participate, you must be a current hearing aid user - or family member of a current hearing aid user - who attends an audiology clinic in any of the UK Home Countries. All UK hearing aid users, whether the aids were purchased through a private dispenser or obtained through a public health service like the NHS are welcome to take part in the study.**

Please complete our anonymous, online survey. It should only take 15 minutes of your time.

Thank you in advance for your participation!
